GENERAL LEAVE

Mr. TAYLOR of North Carolina. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks on the conference report to accompany H.R. 2691, and that I may include tabular and extraneous material.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Mr. TAYLOR of North Carolina. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, we bring to the House the conference agreement on H.R. 2691, the Interior and Related Agencies Appropriations Act for fiscal year 2004.

Let me take a moment to thank the members of the Interior subcommittees for their support and guidance this year. I want to especially and personally thank the ranking minority member, the gentleman from Washington (Mr. DICKS), for the extraordinary assistance that he has given in helping us to shape this bill.

This conference report balances many competing needs and stays within the 302(b) allocation for budget authority and outlays. It is fiscally responsible, providing \$19.6 billion for our public lands, Indian programs, and critical science and energy research programs, and for cultural institutions like the Smithsonian Institution. It also provides \$400 million as requested by the administration to repay partial funds borrowed from the program accounts to pay fire suppression. Also, another \$289 million for wild fires and I will talk about that again.

You may hear that we are not doing enough for conservation programs in this bill. I disagree. Given the constraints allocated, we have provided over \$1 billion for programs in the conservation spending category. But more to the point, there are a number of critically important conservation programs in this bill that have never been included in the conservation spending category, but are equally important. We provide increases of \$65 million for national parks, \$47 million for national wildlife refuges, \$27 million for forest health, \$10 million for hazardous fuel reduction. And I would like to argue that most of the funding of this bill is for conservation activities.

Some Members will argue that we need to buy a lot more Federal land. What we really need to do is a better job of taking care of the lands we have, and this bill does that by providing additional operation increases and funds for critically backlogged maintenance activities.

Firefighting needs are addressed in this bill as I mentioned before, \$400 million in the President's requested amount and another \$289 million above

the enacted level for suppressing the wild fires. That is almost \$700 million for the fire programs. We continue to provide support for the national fire plan with the investment of \$2.5 billion. We support preparedness activities so that we have the people and the equipment in place to handle wild fires. We provide funding increases for hazardous fuel reduction, State fire assistance and forest health programs. And with the passage of that bill, I think we can stop many of the fires that we will have to contend with this past year.

We have provided substantial new resources to handle the Southern pine beetle and mountain pine beetle outbreaks in the West. I am proud of the balance we have achieved in these critical programs that are important to all Americans.

The bill ensures that energy research programs are appropriately funded and that we maintain a proper mix between research on improvements to existing technologies and longer-term higher risk on new technologies. We need to keep all of our options open and not fall into the trap of picking winners and losers.

When it comes to energy resources, ultimately the consumer, not the government, will determine what energy technologies will be successful in the marketplace.

The bill provides for the continued crux of critically needed schools and hospitals for American Indians and Alaskan natives. It also includes a 1-year limitation of funds for historical accounting.

The September 25, 2003, court order would require the Department of the Interior to spend an estimated \$9 billion for an accounting that benefits attorneys and accountants. This subcommittee has maintained that this lawsuit continues to divert scarce resources away from critical programs that benefit Indian people and other programs in the bill. If we were to fund this court-required historical accounting, we would have to shut down one-third of the U.S. Department of the Interior. We would critically underfund education for Indians and health care for Indians. This is not worth the recommendation of the accountants and lawyers.

Finally, the bill takes care of our cultural agencies and provides the funding needed to ensure that the Smithsonian Institute maintains its responsibility for providing quality visitor services and world-renowned research. It provides increases above the enacted level for the National Gallery of Art and for the National Endowment for the Arts and the Humanities. The conference agreement for the interior and related agencies appropriations bill for fiscal year 2004 strikes an appropriate balance among competing funds needs, and I ask for support for this bill.
